

Press Release

Barbara Greuter new Marketing Manager A.E.T. Europe B.V.

Arnhem, 11 June 2007 – A.E.T. Europe B.V. (AET), market leader when it comes to middleware and Digital ID Management for cryptographic tokens, names Ir. Barbara Greuter to Marketing Manager. Her most important assignment is supporting the strong growth and expansion of international ambitions by setting up and help execute the corresponding marketing plan.

Barbara Greuter has over 18 years of experience in IT and information security. Before AET she worked for almost 7 years as Product Manager at NedSecure Solutions. There she was amongst other responsible for the relations with security vendors, education and the product portfolio. Earlier she oversaw the deployment of information security within the Healthcare sector of OHRA as Information Manager.

“Barbara’s timing to join our team is perfect”, says drs. Reinoud Weijman, Managing Director of AET. “We are growing fast, which demands a lot of attention, especially at the marketing side. We and our Partners receive Barbara’s knowledge, insight and network with open arms!”

Barbara: “AET is a fast growing company with more than 4 million users of SafeSign Identity Client. Although AET contributes to higher Information Security everywhere, the name is not well known. It is my task to change this soon. By explaining SafeSign Identity Client and BlueX Digital ID Management more professional and frequent en asking more attention for the large international OEM-deals AET will soon get the recognition it deserves.”

About AET

The Dutch company A.E.T. Europe B.V. (AET), headquartered in Arnhem and founded in 1998, is committed to IT security. AET offers its customers ingenious solutions based on worldwide accepted standards for e-commerce and information security.

AET is setting new standards in the crucial business area of developing middleware for smart cards and USB tokens with its **SafeSign Identity Client**. Another of AET’s bestsellers is **BlueX Digital ID Management**. This well-known and extremely adaptable system supports the simplification and automation of individual steps for the digital ID management process.
