

Press Release

BlueX Digital ID Management Meets CWA 14167-1 Standard

Arnhem, 11 June 2007 - KPMG has issued an audit declaration confirming that BlueX Digital ID Management from A.E.T. Europe B.V. (AET) meets the "Security Requirements for Trustworthy Systems Managing Certificates for Electronic Signatures" CEN/ISSS WS/E-Sign (CWA 14167-1).

"This quality standard certificate is very important to us," says Haaino Beljaars, Product Manager of A.E.T. Europe B.V. "Our Digital ID Management system, BlueX, and the Backup & Recovery procedure have each been successfully audited. This means our clients can use BlueX in the issuing process for qualified certificates, among other things for digital signatures, in accordance with the requirements stated in ETSI QCP 7.4.7."

Jan Biets of the Royal Federation of Belgian Notaries (KFBN) can endorse this: "We have been using BlueX for issuing certificates since 2006 and have been completely satisfied. Now that it has been fully proven that BlueX meets the high standards set by CWA 14167-1, our entire certificate issuing procedure conforms to ETSI requirements which is important among other things for the issuing of certificates for Belgian notaries."

Patrick Paling of KPMG Information Risk Management hands over the audit report to Ir. Ferdy Hanssen of BlueX Development, A.E.T. Europe B.V.

About AET

The Dutch company A.E.T. Europe B.V. (AET), headquartered in Arnhem and founded in 1998, is committed to IT security. AET offers its customers ingenious solutions based on worldwide accepted standards for e-commerce and information security.

AET is setting new standards in the crucial business area of developing middleware for smart cards and USB tokens with its **SafeSign Identity Client**. Another of AET's bestsellers is **BlueX Digital ID Management**. This well-known and extremely adaptable system supports the simplification and automation of individual steps for the digital ID management process.
